Narrative is presented in a good manner

Short Description and Story Writing of the Game

"Robot Warfare: Battle for Survival" is an action-packed, sci-fi shooting game the hero robot, move vertically left to right in the center of the screen, fighting against enemy robots from above and below.

The story behind the game is set in a distant future where robots have taken over the world and humanity is on the edge of extinction. The hero robot play as the last surviving robot. His mission is to fight against the enemy robots and save humanity from complete destruction.

direct contrast

The game takes place across multiple levels, each more challenging than the last one. As the game progress through the levels, enemy robots become more powerful, but hero robot weapons are also upgraded.

The gameplay is fast-paced and intense, with non-stop action. The enemy and hero robot both fire each other. The power of hero and enemy robot decrease when bullet touch them. The power of hero robot increase when he kills an enemy robot. The controls are easy to master, allowing you to focus on the action.

Game Characters Description

Player

There is one human player in the Game.

Robo:

Robo is the main character of the game who can move left to right horizontally on the screen. He is the last surviving robot in the world so he has to win the battle against the enemies to save the world from complete destruction.

Enemies

There are three enemies in the game.

Sniper:

It is the most powerful enemy robot who's bullet when hits the Robo takes more power of the Robo.

Scorpius:

It is second enemy robot who's power factor is very large. His lifetime is more than the other enemy robots.

Mech:

It is the weakest enemy robot who is easy to kill and it's bullet also take a small amount of power of main player robot.

Rules & Interactions

The hero and enemy robot's power decrease when a bullet touch them. When hero robot kills an enemy robot it's power is increased by some amount. Hero and enemy robots can only move from left to right.

Goal of the Game

The goal of the game is to kill all the enemy robots to move to the next level and complete all levels to save the world.
